22<sup>nd</sup> February 2010

I wish to confirm that it is our intention to be a part of the Photographers Skillnet and commit the necessary financial resources towards the Network's cash matching, which may be partly used to fund training for the unemployed. This financial commitment does not involve the payment of a membership fee. Companies must however commit to paying the subsidised training fee for any Photographers Skillnet training courses/events that they/their employees book/attend.

I also commit to release the relevant staff of our organisation to participate in the training programmes organised by the Network.
